# fx50

All you need at a price you want

- **Simple** & easy to use price computing scale
- **Compact** & robust
- **Portable** with internal battery as standard

Easy to use

Designed to offer all the functions your business needs, the FX50 is a simple price-computing scale with great features like large, easy-to-use keys on a wipe-clean keypad and highly visible back-lit vendor and customer displays. It's as easy to programme as it is to use and offers up to 50 Price Look-Up keys, 12 of which are hot-shot keys for fast-moving items.

Other FX50 functions include:

- Price per kg / per 100g
- Tare options
- Touch-key entry of unit price with hold (fix) facility.

Compact and portable

Aesthetically designed with a compact footprint to maximise counter space and a spacious weigh plate manufactured in high quality stainless steel, the FX50 is the perfect fit for the Independent Retailer. The highly portable FX50 can be used both inside and outdoors as both mains and battery power are standard. Power-saving functions such as programmable auto power-off and back-light display mode are ideal when using the internal rechargeable battery.
